

## Description of the Activity

### Christmas tree

What better way to **celebrate** the **holidays** than with a **dance** around the **Christmas tree**? Or by **joining hands** to move to the rhythm of music? How wonderful to **decorate** our homes **together** with lights, stars, and photos! We reunite around a beautifully trimmed tree to celebrate the holidays as a **family**.

In this activity, the children **march** in time to the **rhythm** of the music. Individual **coordination** and the **cooperation** of all participants are necessary in order to execute it successfully. The activity also provides excellent opportunities for the children to gain **spatial awareness** and increase their capacity for **auditory discrimination**, **concentration**, and **rhythmic sensibility**.

**Props:** Christmas tree and decorations.

## Lyrics

### The Christmas Tree

By Musicalité

Author & Composer John Henao

Performer Christina Bélice

My grandparents, parents, sisters and brothers,  
all my friends and myself.

We turn on the lights, we dance and we sing  
around the beautiful Christmas tree.

Chocolate trombones, bells and guitars  
and some honey clarinets.

A song to warm our hearts with love  
and a warm hug by the Christmas tree.

Many snowflakes and tinsels  
some red rubans and family photos,  
stars shining and sparkling lights  
and the most beautiful gift:

A warm hug by the Christmas tree!

My grandparents, parents, sisters and brothers,  
all my friends and myself.

We turn on the lights, we dance and we sing  
around the beautiful Christmas tree.
